TRADITIONAL SERIES

Vision, obscure and venting glass.

Our Traditional Series offers both a stylish and economical option. Traditional doors are crafted to the most rigorous quality standards to be beautiful, practical, strong and durable. You can choose from a variety of designs and decorative grill styles, plus add options like energy-efficient LoE Argon glazing, to create an affordable and attractive entryway for your home.

CASEMENT

Our best performing windows against snow, wind and rain. Designed to keep harsh weather out, our casement windows are energy efficient, reliable and practical. They open out to a full 90 degrees via dual or single-arm crank operators and are hinged at the side, making them a great choice for the main and upper levels of your home.

Available in Supreme, Heritage, Estate and Select window types.

SINGLE HUNG

Our single hung windows are easy to clean and take up no additional space when open. The bottom sash slides up to open, stays in place, and tilts in for quick and easy cleaning. Since our single hung windows do not open outward, they're a great choice for rooms that face decks, porches and walkways. Enjoy reduced energy costs with our improved version of this classic window design.

Available in Supreme and Select window types.

BEAUFLOR®

Beauflor® Resilient Flooring is one of the most extraordinary and fastest growing flooring products available. When you consider its ability to blend authentic beauty, unlimited patterns and unparalleled durability you begin to understand it's not just another flooring product. Beauflor® captures the natural essence and textures of wood flooring, ceramic tiles and slate with advanced photographic technology that replicates natural materials. It's natural looking beauty, performance and value has made it a favored flooring product in the RV, Marine, Manufactured Housing and Multi Family Housing Industries.

Beauflor® Stands Up To Wear, Stains and Extreme Temperatures

Beauflor's resilient flooring surface, an Engineered Composite, is highly resistant to tears, rips and gouges. Ultra Grip® is added to the surface for greater peace of mind and safety underfoot. To keep your floor looking new for years Beauflor adds Multi-Protect™ in the top layer to resist staining agents like oil, gas, hair color, iodine, mustard – all the possible accidents that can happen in daily life. Unlike vinyl floors with paper or felt backing, Beauflor is produced with unique stable backings that remain stable and resist curling and tearing even in extreme hot or cold temperatures. We back that up with a unique cold crack warranty. However You View it Beauflor® is Exceptional RV Flooring

Exceptional Durability

Beauflor's engineered composite wear surface for RV's is so amazing it actually compares favorably with high-quality ceramic flooring! Beauflor has revolutionized resilient flooring for the RV industry with its ability to marry textiles to composite resilient flooring in seamless widths up to 8'2" for the RV industry. Beauflor's PVC backing eliminates curling and cold cracking commonly experienced in the antiquated paper or felt backed vinyl floor products.

Quiet and Comfortable

PVC Foam backings result in quieter and more comfortable floors unlike most hard surface floors such as wood, laminate, vinyl and ceramic.

Safety Underfoot

Ultra Grip® is embedded within the "wear" surface of Beauflor® and provides greater safety underfoot in dry or wet conditions compared to laminate, vinyl, ceramic and wood floors.

Unparalleled Selection and Value

Beauflor® offers a complete collection of resilient floors that allow the designer or manufacturer a choice of styles, underfoot comfort and product performance suited for every application. Beauflor's Unique Selling Proposition is its complete value consisting of lower cost, superior performance and authentic beauty.
